

# Bus

All Aylesbury bus routes serve the town centre, and all stop at the bus station. This eases connections further afield with the town train station across the road from the bus station.

The K1 Flyer is already in service for Kingsbrook. This runs regularly throughout the day, every 30 minutes in peak times, right up to Kingsbrook from the bus station and additionally stops at the train station.

With the growth of the development further bus services are being added making it even easier to get to your destination as quickly and comfortably as possible.
